

# Quadrilateral Hierarchy

**Materials:** quadrilaterals sheet for each student, scissors, glue sticks, blank paper

---

1. Create a hierarchy diagram using the following terms:

Quadrilateral, Parallelogram, Non Parallelogram,  
Rectangle, Square, Rhombus, Trapezoid, Kite, Other

2. Cut out and paste each quadrilateral in the appropriate place on your diagram.
3. Explain your reasoning using mathematical vocabulary and your knowledge of the properties of quadrilaterals.
